

Update to Immunizations for All Kindergarten Students

State Law requires all **Kindergarten students** to have a **second MMR** and to complete the series of scheduled inoculations before beginning the school year.

When your child began Grace your physician filled out an immunization record. Between the ages of 4-6 your child received additional immunizations as part of their yearly physical.

Please let us know the dates and immunizations received since your original forms were submitted. We need to update all kindergarten students' immunization forms for state inspection.

The vaccines listed below should be the last immunizations received. Please jot down the dates your child received these vaccines. Thank you for your help.

Child's Name: _____

Vaccine	Date Received
2 nd MMR	_____
2 nd VAR	_____
4 th IPV	_____
5 th DTaP	_____

Parent Signature: _____ Date: _____
